

Dataprise DRaaS with Veeam

As a Platinum Veeam® Cloud & Services Provider, we understand the need for fast, reliable, and easy-to-use features that minimize downtime and bring efficiency to recovering data and applications in the event of an outage or disaster.

With this offering we leverage Veeam to enable Disaster Recovery-as-a-Service (DRaaS) as part of a comprehensive data protection and availability strategy. Veeam Backup & Replication™ is the industry-leading availability solution for cloud, virtual, and physical workloads.

Dataprise DRaaS with Veeam Cloud Connect delivers:

- Local backup with a retention policy
- Remote (cloud) backup with a retention policy
- Enhanced Data Protection, our proprietary Insider Protection technology
- Failover capabilities to our remote data centers

Through using Veeam, we provide additional capabilities including:

- Cloud, virtual and physical backup and recovery options
- Recovery Strategies for Single and Multiple VMs
- Powerful NAS backup (local only)
- Image-based virtual machine (VM) replication from a VM or backup
- Built-in management and deployment for Veeam Agents for Linux and Microsoft Windows
- Advanced storage integration
- Enterprise plug-ins for SAP HANA and Oracle RMAN
- Data integration API and Universal Storage API
- Built-in WAN Acceleration including a high-bandwidth mode (optional)
- Encryption, deduplication, and compression of backup files

Advantages of Dataprise’s DRaaS with Veeam

Monitoring & Reporting	Support	Testing	Security
<ul style="list-style-type: none"> • Continuous monitoring of the local and remote backup environment • Real-time status shows recoverability • Daily updates of current local and remote restore points • Single pane web portal 	<ul style="list-style-type: none"> • 100% Veeam-focused • Deep level of Veeam expertise • Assistance with configurations and support at no additional cost • DRaaS – RTO 4 business hours/RPO 8 business hours • Replication – RTO/RPO as low as 1 hour 	<ul style="list-style-type: none"> • Full annual DR test at no additional cost • Automated health checks of backup files • Status monitoring of local appliances with testing for low memory, disk space, anti-virus, and Windows update compliance 	<ul style="list-style-type: none"> • Security perimeter extends to the local backup repository, if managed by Dataprise • Enhanced Data Protection takes Veeam Insider Protection to a new level • 24x7x365 Security Operations Center
